Education

University of Wisconsin - Parkside

Bachelor of Science in Computer Science | GPA 3.70

Minor in Music

Kenosha, WI

Sep 2022 – May 2026

Relevant Coursework

- Data Structures and Algorithm Design
- Database Management Systems
- Artificial Intelligence
- Introduction to Data Science
- Data Science Programming and Visualization
- Mobile Development in iOS

Bonfire Messaging App | Kotlin, Firebase

- Collaborated with five students to develop a cross-platform messaging application using Agile
- Developed the Android client, implementing RecyclerView chat interfaces, image uploads, voice messaging, and in app notifications
- Integrated Firebase Authentication, Cloud Firestore, and Firebase Storage to support user accounts, cloud data synchronization, and media sharing.

Experience

Intern Programmer UW-Parkside App Factory

June 2024 – May 2026

- Developed software across multiple client projects using a variety of languages
- Collaborated in weekly Agile planning meetings
- Presented software demos and gathered feedback directly from clients
- **LoggiTales Authoring Tool** | React.js
 - Collaborated with students to develop an EPUB editor, allowing a user to overlay media on a page
- **LoggiTales Puzzle Creator** | Google Apps Script
 - Developed a Google Sheets extension that generates formatted puzzle templates and aids users in creating and uploading a format compatible puzzle to the project server
- **Menasha Utilities Renewable Energy Kiosk** | Java, Vue.js
 - Communicated directly with the client to gather and clarify project requirements
 - Refactored legacy code and resolved issues in the Vue.js layout and local Java backend server
 - Used Docker to containerize and manage the local development environment

Projects

Hilbert Cooking Deluxe | GDScript (similar to Python)

- Built a rhythm game available for Windows, designing the UI, animations, music, and game logic

Jazz Chordle | HTML, CSS, JavaScript

- Created a Wordle-like puzzle web game where a player must guess the chord of the day

Skills

Languages: Java, Kotlin, Python

Frameworks & Tools: Git, Firebase

Natural Languages: English (fluent), Spanish (strong intermediate)
